

Marlow Rischmüller

Applied Artificial Intelligence & Machine Learning

marlow@marlow-rischmueller.com · Bremen Area, Germany

LinkedIn Placeholder

EDUCATION

M.Sc. Management Information Systems

2024 – 2026

University of Bremen

B.Sc. Business Informatics

2019 – 2024

University of Bremen

SELECTED PROJECTS

Master Thesis

Specialising an Open Source LLM for Marine Engineering Applications within Hardware Constraints using LoRA Fine Tuning

Fine-tuning a resource-efficient small language model based on Microsoft's Phi-3 architecture for marine engineering and oceanography-related tasks using supervised fine-tuning and LoRA.

Python · PyTorch · HuggingFace Transformers · CUDA

Bachelor Thesis

Simulation and prediction of saliency maps for people with impaired visual perception using a convolutional neural network

Prediction of visual saliency for simulated visual impairments using modified convolutional neural networks and saliency prediction models.

Python · PyTorch · OpenCV · CUDA

EXPERIENCE

Technical Operations & IT Support

2017 – 2024

Supported the technical and operational processes of a family-run business in the beauty & wellness sector.

Responsibilities included troubleshooting technical issues, maintaining and updating computer systems, supporting operational workflows and assisting with technical decisions.

SKILLS

Languages & Frameworks: Python, Java, PyTorch, scikit-learn, HuggingFace Transformers

Areas: Machine Learning, NLP, Computer Vision, Data Analysis

Tools & Technologies: Git, CUDA, OpenCV, pandas, NumPy

LANGUAGES

German (Native), English (C1)
